

McINTOSH FENCING PTY. LTD.

Environmental Management Policy Statement

McIntosh Fencing Pty. Ltd. is committed to protecting the environment by implementation of environmentally sound construction practices to minimize impact on the environment.

This Management Plan aims to ensure that Environmental issues and risks are identified, assessed and managed.

Protection of the environment is of utmost importance to all construction sites, taking into account the effects our actions have on the area, & also if there is any case for the area to be classified as of "Cultural Significance", requiring special treatment.

Most of the activities associated with civil construction can impact directly on the environment, & it is imperative we minimize the effects constantly.

Often common sense & a responsible attitude will ensure that our work practices are environmentally sound, together with continuous monitoring & auditing of all our activities, will ensure our Environmental objectives are adhered to.

All site workers, employees and subcontractors will be fully inducted prior to works commencing.

Further suggestions & practices are encouraged to be discussed at appropriate times, such as at Toolbox Meetings and morning pre-start chats.

McIntosh Fencing Pty. Ltd. shall do this by its commitment to –

- ***Prevention of pollution***
- ***Conservation of raw materials & natural resources***
- ***Compliance with relevant environmental legislation***
- ***Continual improvement in environmental performance by constant evaluation, review & training.***
- ***Communication of its commitment to its objectives, to all levels of the organization.***
- ***Communication with, & response to the concerns of all interested parties.***

***THIS UNDERTAKING TO PROTECT THE ENVIRONMENT IS
INTEGRATED INTO OUR MANAGEMENT SYSTEM.***
